## **For Immediate Release**

**TORONTO, August 21, 2010 – The Electric Vehicle Society of Canada (EVSC) announces its EV Fest website at [www.evfest.ca](http://www.evfest.ca) is now open for public viewing, Guest, Volunteer, and Exhibitor Registration.**

**The EVSC in partnership with the Toronto Hybrid Group has scheduled EV Fest for October 17, 2010 at Lexus-Toyota On the Park. So far, the following commitments are firmly in place from the following exhibitors to present their wares to visitors –**

- Electric Mobility Canada, a Canadian and US Organization for Electric Vehicle communications**
- Engineer.us, a Prius PHEV Conversion Company**
- Durham Electric Vehicle Association, a GTA-based Electric Vehicle Non-Profit Association**
- ElectroCraft, a Local EV Components Company**
- EV Fern, a Local EV Battery Company**
- Singular Motion EV, a new Electric Vehicle Conversion Company**
- eMileage, a local PHEV Conversion Business**
- Szott Engineering's Hybrid Electric Horseless Carriage**
- eDart, ESCORTEV, & NOGAS96V - all personal and student built Electric Vehicles**
- Toronto Electric's Project EVE and their antique Electric Vehicle**
- epRider, provider of iGo Urban and Trail Electric Bikes**

**The Electric Vehicle Society of Canada's mandate is to provide show visitors with the opportunity to learn about electric vehicles and how accessible this technology actually is.**

**That is why attendance for visitors is free and Exhibitors rates are well priced to provide both corporate and non-profit exhibitors with savings for early registration.**

**According to EVSC president Howard Hutt, "This show is shaping up to become a tremendous opportunity for manufacturers and hobbyists to show the buying public how future cars will look and how they will differ from current vehicles," he enthused.**

### **About the Electric Vehicle Society of Canada**

**The Electric Vehicle Society of Canada is proud to promote Electric Vehicles. They meet 10 times a year to provide a forum for members to discuss and promote personal experiences in building, converting or buying vehicles with electric propulsion.**
